PROFESSIONAL SUMMARY

Junior Full-Stack Developer with a Master's degree in Distributed Networks, Systems, and Applications. Builds scalable web applications with React, Next.js, TypeScript, Node.js, Express, and MongoDB, with experience in RESTful API design, database modeling (MongoDB, Supabase, PostgreSQL), authentication workflows, Gemini AI integration, and cloud deployments. Focused on clean architecture and responsive UI design.

TECHNICAL SKILLS

Frontend: React.js, Next.js 15 (App Router), TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Framer Motion, Recharts

Backend & APIs: Node.js, Express.js, RESTful APIs, JWT Authentication, Serverless Functions

Databases: MongoDB, Supabase (PostgreSQL + RLS), PostgreSQL

Tools & Cloud: Git, GitHub, Vercel, Netlify, Render, Cloudinary

Concepts: Responsive Design, SPA/SSR, CRUD Workflows, Clean Code

Languages: Arabic (Native), English (B2 - Professional Working)

SELECTED PROJECTS

AI QuizCraft - AI Quiz Generator SaaS Platform

Next.js, Supabase, Gemini AI, Tailwind CSS | Live: <https://ai-quizcraft.vercel.app/>

- Built an AI-powered SaaS platform that converts documents (PDF/DOCX/TXT) and raw text into customizable quizzes (MCQs, True/False, Short Answer) using Google Gemini AI.
- Implemented Supabase backend (PostgreSQL, Row-Level Security, email/password authentication); developed a question editor, shareable links with QR codes, and real-time score analytics with Recharts.

University Portal - Academic Event & Resource Platform

MERN Stack, Cloudinary, REST APIs | Live: <https://studentdr.vercel.app/>

- Developed a full-stack portal for academic directories, research laboratories, journals, and campus events, with role-based admin access control.
- Secured image upload pipelines with Cloudinary; separated frontend and backend codebases for independent scalability and deployment.

LinkForge - AI Bio-Link Builder

Next.js, Supabase, Gemini API, Tailwind CSS | Source: <https://github.com/Khaled-Oudenani/bio-link-builder-with-ai>

- Architected a SaaS bio-link app with customizable public profile pages and dynamic themes; integrated Google Gemini API for automated bio generation.
- Used Supabase for real-time data persistence and authentication; built a responsive, accessible UI optimized for performance and search visibility.

Dental Clinic Booking Application

React, Node.js, Express, MongoDB, Cloudinary | Live: <https://khaled-dental.netlify.app/>

- Built an end-to-end clinic management system for online appointment booking; designed MongoDB schemas and backend endpoints for bookings and services.
- Integrated Cloudinary for media management and deployed frontend and backend on cloud platforms.

EDUCATION

Master's Degree in Computer Science - Distributed Networks, Systems, and Applications

Licence (Bachelor's Degree) in Computer Science - Information Systems
