SELECTED PROJECTS

AI QuizCraft — AI Quiz Generator SaaS Platform

Next.js, Supabase, Gemini AI, Tailwind CSS | Live Demo

- Built an AI-powered platform that turns PDF, DOCX, TXT, and plain text into customizable multiple-choice, true/false, and short-answer quizzes.
- Implemented PostgreSQL storage and email/password authentication; added question editing, shareable links with QR codes, and score analytics.

Sweet Bloom — Sweets Storefront

Next.js, Node.js, Express.js, PostgreSQL, ImageKit | Live Demo

- Built a responsive storefront website for a sweets business, presenting products and brand information in a polished, customer-friendly interface.
- Developed the full-stack application with an Express API, PostgreSQL data storage, and ImageKit for image delivery and management.

LinkForge — AI Bio-Link Builder

Next.js, Supabase, Gemini API, Tailwind CSS | Live Demo

- Created a SaaS bio-link application with customizable public profile pages and dynamic themes, including AI-assisted bio generation via Gemini.
- Used Supabase for authentication and data persistence; built a responsive interface with attention to accessibility and search visibility.

Dental Clinic Booking Application

React, Node.js, Express, MongoDB, Cloudinary | Live Demo

- Built an appointment-booking website for a dental clinic, presenting clinic services and supporting a clear, user-friendly booking experience.
- Designed the frontend and integrated the project into a full-stack web application workflow.
